

## Early Childhood Education

The goal of our early childhood education program is to meet the social, physical, and cognitive needs of our students. Children 3-5 years old develop rapidly and Bluemont facilitates learning experiences that strengthen a child's mind and body. Our teachers take great care in understanding each child. We strive to create a learning environment that challenges the individual. Frequent conferences and class communication keep our parents involved and aware of their child's progress.

Bluemont implements a stimulating curriculum that covers traditional topics in emergent literacy, science, math, social studies, art, and physical development. Specifically we apply developmentally appropriate lessons to facilitate social skills and school readiness. Each child shines at Bluemont!

2011-2012 Programs			
Two Year olds	Tu/Th	9:00-11:00am	\$143/month
Three Year olds	M/W/F	9:00-11:30am	\$200/month
Four Year olds	M/W/F	9:00-11:30am	\$200/month
